*“I consulted with Dr. Price regarding breast augmentation. I have had three children and recently lost over fifty pounds. I had the surgery along with a breast lift, the results were amazingly perfect! I would do it again and recommend it to any one thinking about doing it. I feel so much more confident in clothing!! I love it.”*

*“I was diagnosed with breast cancer in my left breast in June 2000 and underwent a modified radical mastectomy and chemo treatments. I had very mixed emotions and for four years after had not intended to do a reconstruction of the breast figuring it was too involved and would not make a real difference. But as time went on and I became more uncomfortable with myself in my clothing, I started looking into my options and heard many positive and good things about Dr. Price and his work. After making the appointment and going for my first visit with Dr. Price I knew I wanted the surgery. Dr. Price was friendly, caring and very informative of the whole reconstruction process. He made me feel at ease and better about myself with his caring ways. After the reconstruction I feel better and whole and comfortable in my clothes like before. It has made a big improvement in my life after cancer. I would recommend the surgery to any woman who has lost her breast to cancer and definitely recommend Dr. Price for the job. Kaiser is very fortunate and blessed to have a great doctor like Dr. Price on their medical staff. I am grateful for being a member of Kaiser at the right time in my life. Thank you most of all, Dr. Price, for everything!!”*
