WE WANT TO HEAR IT

We're looking for Kaiser Permanente members with a hereditary risk for breast & ovarian cancer to help us improve the patient care experience.

An Invitation to join the Kaiser Permanente Northern California Hereditary Cancer Program – Patient Advisory Council

What do advisors do?

- **Partner** with clinicians to help improve health care for Kaiser Permanente members with an inherited cancer risk—in ways that are responsive to patient and family needs and values.
- **Help** us to ensure a compassionate approach to discussing intervention options.
- **Share** your insights and perspectives as we design educational materials and support services.
- **Offer** ideas for ways we can better communicate with our members.

What time commitment is involved?

- We typically meet “virtually” via web conference call 1 hour every 1-2 months.

Want to learn more?

- Contact Crisgel Basconcillo, at Crisgel.A.Basconcillo@kp.org or 415-833-4199.
