Help Me Communicate
Speech Education Program

This is an evidence-based training program for parents who have children ages 16 - 33 months-old with mild to moderate speech delays. The class, instructed by our speech therapist, teaches parents how to interact with their children in ways that encourage and promote speech and language development.

Instructed by: Ramey Peneueta, Speech Therapist & Kimberly Young, Health Educator

- Format: two 90 minute sessions, one month apart
- Class is for parents only, *children do not attend.*
- Recommendation by pediatrician.
