

Vacaville Medical Center

Urgent Care Clinic

Location: MOB-B, B-16

Hours: 11 a.m. - 7 p.m., 7 days a week

What is urgent care?

An urgent care need is one that requires prompt medical attention, usually within 24 or 48 hours, but is not an emergency medical condition. Get urgent care for:

- Minor injuries and cuts
- Backaches
- Sore throat and earaches
- Upper respiratory symptoms
- Frequent urination or a burning sensation when urinating

For other health conditions, you should seek primary care for nonurgent needs, existing issues, and new symptoms; and emergency care for medical and mental health emergencies.

Book a primary care visit for:

- Routine physical and follow-up exams
- Pap tests or cervical cancer screenings
- Management of ongoing medical conditions, like diabetes or hypertension
- Chronic joint pain or lasting symptoms from older injuries
- Chronic cough lasting longer than 2 weeks

Go to the emergency room for:

- Severe, persistent bleeding
- Broken bones and head injuries
- Severe stomach pain that comes on suddenly
- Decrease in or loss of consciousness
- Severe shortness of breath

Make an appointment: Visit kp.org or call 707-651-1025
Limited walk-in appointments available

If you believe you have an emergency medical condition, call 911 or go the nearest emergency room.

For the complete definition of an emergency medical condition, please refer to your Evidence of Coverage or other coverage documents.
